

ABOUT US

Rapsey Griffiths delivers tailored turnaround and insolvency services to businesses and individuals across Australia.

We understand the uncertainty and stress that comes with experiencing financial difficulty, whether in business or personally. The challenge of keeping your head above water, along with feelings of potential failure, can be overwhelming.

Our experienced team work with all types of businesses, from start-ups to SMEs and large corporations. We've helped clients across a range of industries, including mining, engineering, construction, property, manufacturing, hospitality, tourism, retail and the not-for-profit sector.

We're committed to turning things around. However, where that isn't a viable option, we work to minimise losses, using the right insolvency solution. For businesses this may be administration or liquidation for individuals, bankruptcy, or a personal insolvency agreement.

"Our team of professionals know that getting the right advice fast is key to financial survival."

MEET THE PARTNERS

Chad and Mitch set up Rapsey Griffiths in 2013 to work independently as turnaround and insolvency specialists. Service is their key philosophy. They are focused on developing strategies to help their clients recover.

OUR APPROACH

Our client relationships are built on trust, empathy and transparency for the best possible outcomes.

We work with business owners, individuals and their accountants to identify the key issues and discuss options to remove uncertainty and get finances back on track.

Early intervention provides the best chance of turning things around. In your initial meeting with us we'll discuss your situation and offer some tailored solutions. You can then start

to weigh up your options and may be surprised how many there are. Hate jargon? So do we. That's why we always talk clearly and frankly right from the start.

We'll create a plan, keep the relevant parties in the loop throughout the process and deliver clear, critical thinking when decisions need to be made.

BUSINESS TURNAROUND

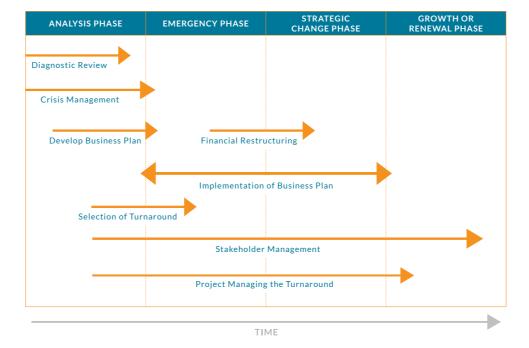

Our team can help you identify the business issues, find a solution and implement a plan, to ensure the best possible outcome.

It's crucial for underperforming businesses to seek help early to boost their chances of survival.

At Rapsey Griffiths, we're passionate about keeping businesses afloat. While we do offer a range of insolvency services, our first step is to help our clients develop and implement appropriate strategies to regain and rebuild profitably. Using our three step processes, we analyse the situation, implement a plan and boost profitability.

We ask the right questions to determine the chances of business survival and identify appropriate strategies. We provide tailored solutions, including management changes, reductions in capital spending, reviewing the accounts process and contacting financiers. We shift from correcting problems, to focusing on profitability and enhancing economic value, as things start to improve.

TURNAROUND PROCESS

THE RAPSEY GRIFFITHS DIFFERENCE

EXPERIENCED & REGISTERED

We are qualified chartered accountants, turnaround experts, liquidators and trustees in bankruptcy.

PROBLEM SOLVERS

Taking an objective stance, we find the best possible solution for everyone involved.

TURNAROUND FOCUSED

Our priority is recovery. Where that's not possible, we work swiftly to mitigate losses.

EMPATHETIC ADVISORS

We understand what you're going through and are here to support and guide you.

CLEAR COMMUNICATORS

You can count on us to deliver frank, informed commercial advice minus the jargon.

We are qualified turnaround advisors and licenced to act in a wide range of situations. Our team are experienced at reigniting business and wind things down efficiently.

CREDITORS VOLUNTARY LIQUIDATION

If a business is insolvent and the directors and shareholders agree that wrapping things up is the best course of action, we can work as your liquidator. A Creditors Voluntary Liquidation is a fast and effective strategy to deal with a company that can no longer pay its debts, including amounts owing to the ATO and assists in complying with their statutory duties.

VOLUNTARY ADMINISTRATION

If a company is suffering short term cash flow or one-off financial problems this could be the best option. Voluntary administration is designed to resolve a company's future quickly and bring about a better result for creditors. Companies are permitted to continue trading for a short period, whilst undertaking a formal restructure and negotiating compromises with its creditors.

MEMBERS VOLUNTARY LIQUIDATION

If shareholders have requested the winding up of a company's affairs while still solvent, we guide you through the process. We can help you realise company assets, end or sell operations, pay any debts and distribute surplus assets to shareholders.

RECEIVERSHIP

Receivorship is one way a secured creditor can attempt to collect the money they are owed. A receiver's role is essentially to collect and sell enough of the charged assets to repay the debt owed to the secured creditor.

> Our mission is to help businesses and individuals recover from financial stress.

PERSONAL INSOLVENCY

We can help you get your personal finances back on track.

PERSONAL INSOLVENCY AGREEMENT

A personal insolvency agreement involves us drawing up an agreement between you and your creditors, detailing how you'll pay your debts, both in cash and asset sales. Not only can this provide debt relief, it also has less impact on your personal credit rating.

BANKRUPTCY

Voluntary bankruptcy can be the best option when an informal arrangement to pay back creditors could not be achieved, or the amount you owe is insurmountable. We can act as your trustee to notify creditors, pay back what can be and prevent action being taken.

We are experienced and registered: As Registered Liquidators and Registered Trustees in Bankruptcy we have the expertise and authority to act.
